

LABORAMA 2019

BRUSSELS EXPO

THE EVENT FOR THE LABORATORY SECTOR

 **SHIMADZU**
Excellence in Science

Laborama will celebrate its 20th edition in 2019 in a new location. After more than 10 years in Brussels Kart Expo, Laborama will call Palace 3 of Brussels Expo its new home.

14 & 15 March
Hall 3, Booth C15

**NEW
RELEASES**

Shimadzu Benelux would like to introduce new releases during Laborama. We present the latest highlights of Chromatography, Mass Spectrometry, Sum Parameter, Spectroscopy and physical Testing Machines. Visit our website www.shimadzu.eu for more information about the new product line-up and some leading product and system solutions for applications in chemistry, pharmaceuticals, medical, environment, food and automotive industries.

- Shimadzu Corporation announces the release of the new top-of-the-line Nexis GC-2030 gas chromatograph (GC).
- The GCMS QP-2020NX is now a smart solution expanding the possibilities of laboratories to their fullest potential.
- New LCMS-9030 Q-TOF High resolution mass spectrometry system provides greater accuracy with higher sensitivity
- New UV-1900 UV-VIS Spectrophotometer. Industry's fastest level scan function and LabSolutions UV-Vis control software
- IRSpirit FTIR spectrophotometers - Smallest footprint meets exceptional ease of use functionality
